Hiring Manager
FOX Sports Cincinnati

Dear Hiring Manager,

I am writing to express my interest in the Software Engineer (College Internship) position at FOX Sports Cincinnati. As a current Master's student in Software Engineering at Arizona State University, I have gained hands-on experience in full-stack development, software engineering, and modern web technologies. I am eager to bring my skills, passion for sports, and desire to learn to FOX Sports, a leader in creating innovative digital products that engage millions of users worldwide.

During my time at Western Union, I contributed to developing and maintaining the POS retail application, enhancing efficiency by 70

At MindsClik Digital Solutions, I deployed microservice infrastructure to the Google Cloud Platform using Kubernetes, which led to a significant boost in development productivity. Additionally, I have developed various applications, including an online compiler web IDE, a hospital management system, and a cryptocurrency tracker, where I utilized technologies like Docker, Kubernetes, Angular, and Flutter. These projects have solidified my foundation in agile development and collaborative problem-solving, qualities I believe will align well with the fast-paced and dynamic environment at FOX Sports Cincinnati.

I am particularly drawn to the opportunity at FOX Sports because of your commitment to creative excellence in sports production and your innovative approach to mobile apps, websites, and video platforms. I am excited by the prospect of working with passionate professionals who share my enthusiasm for sports and cutting-edge technology.

I look forward to discussing how my skills and experiences can contribute to your team. Thank you for considering my application.

Sincerely,
Ashutosh Kumbhar
